

# WETLAND EXCURSIONS 2022

@ the Creston Valley Wildlife Management Area

## Elementary Programs

### K-1: Nature Explorers, Using our Senses

Explore, observe and learn about the ever changing wetland and the plants and animals that live here by using your senses...

### Grade 2-3: Water, Water, Everywhere!

Discover the water cycle and how the wetland plays a vital role in maintaining clean water.

### Grade 4-5: Adaptations to Life in a Wetland

We will showcase the amazing adaptations plants and wildlife have to survive, reproduce and interact in the wetland ecosystem!

### Grade 6-7: All About Birds

What makes a bird a bird? We will learn all about bird biology and the sweet skills that set these creatures apart from others...

**Program includes a guided walk & dip netting activities**

**Cost: \$4 per student • Duration: 2 hours**

(\$60 minimum charge to run a program)

## Canoe Tours (Gr. 4+)

Part the cattails to look for nests, taste some wetland treats and learn more about the plants and animals that live here. Add this onto an excursion!  
(Canoe tours not available in the fall)

**Cost: \$5 per student • Duration: 1 hour**

(\$50 minimum charge to run a program)
